

Do you want more hits on your web site?

Let Bluebird be your portal to the Internet with Car Rental Club.

We've done it again...we've come up with yet another way to make your rental business more profitable! Bluebird can now give your customers better access to your web site. *This is a web "portal" site EXCLUSIVELY for Bluebird customers!* Listed with the major search engines (such as Yahoo, MSN, AOL, etc.) it is found by Internet users looking for a car rental. Once they select a country or state, then city, all of our customers who have web sites are listed along with a hyper-link to their site. Then individuals searching for rental locations will click on your web address and directly access your site. If desired, you can even post a coupon. *More visitors mean more sales!*

Log on to www.carrentalclub.com and join the hit parade today!
