

# Eliminate **Double Entry** of Data!

*Let Bluebird's bi-directional interface to your DealerBuilt LightYear Dealership Management System save you time and money!*

*(not to mention sore fingers)*

**Are you doing TWICE THE WORK:**

**Entering the same CUSTOMER DATA for both auto rental and dealership customers?**

*If this is a familiar scenario, then you need the Bluebird interface to your DealerBuilt LightYear DMS!*

## RentWorks<sup>4</sup><sup>TM</sup>

With this interface, you can look up existing customers in your DealerBuilt LightYear DMS, and then transfer their information into RentWorks during the rental process. If you add new customers into RentWorks, they will automatically load into the DealerBuilt LightYear database.

*Call your Bluebird sales rep today for more details.*
