

RentWorks Version 4.1.f2 (HERTZ) Release Letter

Note: Release 4.1+ requires Progress Version 11.3+

Program	SAR	Brief Description
Hertz	10288	Change the label from Alternate Owner (Inv.FinanceLocation) to Owning Area in Fleet Maintenance
Hertz	10303	Create the foreign contract check-in screen for Hertz.
Hertz	10313	Apply Airport Access fee when customer arrived at the airport.
Hertz	10172	Foreign vehicles: Check if VIN is in sold table. Re-use InVID - when Product/Unit is either found in InvTrx or Sold
Hertz	10287	Add a Hertz due location lookup to the rental process.
Hertz	10304	Contracts with direct bill deposits showing negative LAST-NET-DUE in the DRB files.
Hertz	10306	Create a Web Service to lookup Hertz locations from RentWorks clients.
Hertz	Various	Many DRB improvements as requirements change on the fly.
Hertz	10318	Hertz reservations call the Web Service to search and import foreign Hertz due locations from Hertz server
Hertz	10333	When no records returned on City / State lookup, a blank record shows and message pop-up.
Hertz	10336	The Hertz lookup process not narrowing the search when other search fields populated.
Hertz	10346	Hertz prepaid reservations round the prepayment amount incorrectly. Weekend non tour contract charges complete rental with special rate.
Hertz	10359	Ignore the tour company zip-code for tour contracts. Tour contract should check only the renter's zip-code.
Hertz	10386	Need to add insurance replacement rates in the CDP import process.
Hertz	10400	Add delay to send Foreign Contract email to corporate similar to the way sending closed contracts delay works. This allows the licensee time to ensure fuel level is correct.
Hertz	10401	Ensure Insurance Replacement RA number prefix are used if an insurance contract is detected.
Hertz	10407	New Statement Reconciliation
Hertz	10410	Change no-show processing for prepaid reservations.
Hertz	10413	Add an edit check on contract validate, to enforce that renters state and country are not blank.

Hertz	10421	Provide a lookup of Insurance Replacement rates in the CDP lookup process.
Hertz	10316 (partial)	Add additional Hertz functionality

Level 2

Counter	10376	Displaying a warning message when there is an open RO scheduled during the duration of the contract.
PPGEN	10343	Enhance PPGEN to overlay existing PDP Group supplied PDF's with PPGEN form output.

Level 3

API	10360	Allow multiple chain codes to be used in RezPower rate search.
Counter	10200	The boxes in the charge viewer are overlapping charge amounts.
Counter	10264	The title for the lookup browser for fees and taxes shows "Misc. Charge Lookup".
Counter	10324	Correct the counter rollover screen that is chopping off the RA number. Add a CF to default the billing period to Rate Frequency.
Counter	10381	Further enhancement for Airport Access fee automatically applied and check mandatory driver fields.
Counter	10396	A "percentage discount" is being removed from a close/posted contract.
Counter	10297/10296	Increase format of Company from 30 to 50 characters.
Maintenance	10188	We allow for 9 digit Repair Order (R/O) numbers but only display 7 in Vehicle problems and other areas.
Reports	10298	Element draft is failing when name contains Spanish (accented) characters. Replace them with their English counterparts.
Reports	10309	Reservation report sent to Excel does not contain the pickup location.
Reservations	10307	A budget corporate reservation does not show in the Daily Planner.
RezPro	9676	Change the descriptions in the Charge Summary of Regular and Local to Special and Regular for ALL reservation links
RezPro	10198	Add additional tags for insurance company and policy number to the VIP rezlink
RezPro	10268	Process Avis/Budget reservation sent as emails to 'foreign' licensees.
RezPro	10316	CF A1091 Reservation prepay report date, CF V1005 - phone number format, CF K1009 - Stale reservation reused
RezPro	10371	Add CF A1091 option to set no-show amount to daily rate.

RezPro	10392	When a Silver bullet change to an honored reservation is transmitted, the contract charge values are incorrect.
RezPro	10393	Rez-Link cancelations with no-show amounts
RezPro	10395	The res processors DOB returns future dates.
