

CREATE AND MAINTAIN YOUR OWN RENTAL AGREEMENT PROGRAMS

with the

PRINT PROGRAM GENERATOR (PPGEN)

PPGen print programs are stored in the RentWorks database, allowing you to access them with the same familiar and easy-to-use screens of RentWorks! Most of the editing of print programs is done on PPGen's main screen, which is full of pull-down menus and browsers:

Line	Col	Type	Field	Value	Format	When
2.08	5.42	Contract	DateDue		99/99/9999	0
2.08	5.42	Contract	DateIn		99/99/9999	C
2.08	6.75	Contract	TimeIn		Z9.99	C
2.08	6.75	Contract	TimeDue		Z9.99	0
2.08	7.50	Totals	MilesCharged		-ZZ.ZZ9	C
2.08	8.17	Text	Miles @		X(7)	0C
2.08	9.17	Regular Rate	MileageRate		-ZZ.ZZ9.99	0C
2.08	10.25	Regular Rate	TotalChargeMiles		-ZZ.ZZ9.99	C

Now you can determine which fields appear on your Rental Agreement...and where! Programming subtotals and totals is as easy as point and click. PPGen even allows you to change between a cut-sheet and continuous-feed form, and to change fonts for laser printers.
