

RentWorks Version 4.1.M23 Release Letter

SIGNIFICANT CHANGES:

RentWorks integration to Self Inspection – We are now fully integrated to Self Inspection. This is an integration that allows your customers to perform their own guided vehicle inspections on check-out and check-in. Renters receive a text and/or email with a link that provides guidance for the self inspection. This frees up your agents from the task of check-out and check-in vehicle inspections. Vehicle inspections can be viewed from within RentWorks contract modify.

Contact RentWorks Sales or Support for additional information.
